2026 ALTAIS SPONSORSHIP DECK

WHO ARE ALTAIS RACING?

Altais Racing is a STEM Racing team based out of the Crypt School, Gloucestershire. We are a group of ***6 students*** that came together in September of 2025, consisting of 3 Y12 students and 3 Y13 students. The Y12s were chosen during a rigorous 2 stage interviewing process, ensuring that all of our members have ***goals aligned*** with the Altais brand vision. All members of the team have aspirations to work in ***STEM***, with career aspirations ranging from aerospace engineers to physicians. In December 2025, we took part in the regional competition in Bath, taking 3rd place and winning the verbal presentation award

Personal goals

From the competition we aim to ***develop appropriate skills*** that we as a team could utilise in the future(public speaking, engineering/design,negotiation skills,teamwork etc.). We also aim to perform highly, with STEM racing being a good supercurricular for our UCAS applications. Furthermore, we aim to establish a strong team foundation of which future Altais teams can build off of, establishing the Crypt School amongst the STEM community.

Marketing goals

- ***Display our talents to potential employers***

The competition allows us to utilise our *practical skills* from engineering to graphic design. We are highlighting to future employees that we have applicable skills and *experience working* as a team.

- ***Highlight sponsors(ROI)***

We aim to make sure that all of our sponsors feel satisfied with the benefits of investing in us. We do this through *promotion* on social media as well as on our uniforms and cars.

- ***Provide awareness to competition/introduce the younger years***

In order to *introduce the younger years* to the competition we run an f1 in schools club, allowing the y10s and 11s to gain experience working on a similar project before joining the stem racing teams in y12. We also aim to promote the competition to our *online audience*, creating informatory posts that detail the competition.

ROI SCHEME

The sponsorship tiers are named after stars within the Draco constellation, tying in with our astrology theme.
